PRATHIKSHA DHANDAPANI

EXPERIENCE

UI/UX Designer

DCube Data Science

Hyderabad, India · Aug. 2024 - present

- Conduct user research and usability analysis to identify pain points and improve product experience
- Design end-to-end interfaces, user flows, wireframes, mockups, and interactive prototypes for a cybercrime web application and data collection systems
- Lead UI redesign initiatives for the KonaAI platform, improving consistency across typography, color, icons, and components
- Created and maintain a design system and style guide for scalable, reusable UI components
- Perform UI testing and validation across platform releases to ensure visual and functional quality

UI/UX Trainee

Enforgient Technologies

Hyderabad, India · Apr. 2021 - Oct. 2022

- Supported UX research through interviews, surveys, and usability testing
- Created user flows, journey maps, and information architecture documentation
- Designed low- and high-fidelity wireframes and interactive prototypes in Figma

Design Intern

Arisha Labels

Chennai, India · Jan. 2021 - Mar. 2021

- Created textile and floral design concepts, digital motifs, and pattern assets for garment collections

Photography & Graphic Design Intern

Annapurna College of Film & Media

Hyderabad, India · Jan. 2018

- Produced photography and graphic design assets using Adobe Photoshop and Illustrator

- Tamil (Native)
- Telugu (Native)
- English (Professional)
- Hindi (Conversational)
- French (Conversational)

SELECTED PROJECTS

KonaAI 1.0 & 2.0

Fraud & risk management platform

- Redesigned the platform from a legacy interface into a modern, user-centered web application
- Created complete UI designs in Figma for Alert Management, Risk Management, Fraud Management, and Case Investigation workflows
- Improved navigation, information architecture, and visual consistency through reusable components

Covasant

US-based client — fraud detection & risk management

- Developed user flows and responsive UI screens for Alert Management, Risk Analysis, Fraud Monitoring, and investigation workflows
- Collaborated with stakeholders and developers to deliver production-ready designs within a one-month timeline

DCube Project Management System

Enterprise platform

- Designed a platform enabling administrators, clients, and team members to manage projects efficiently
- Created interfaces for project tracking, user management, team collaboration, task monitoring, and time-entry management

DCube CyberProtex 1.0 & 2.0

Cybersecurity platform

- Designed and enhanced web applications for monitoring and managing security operations
- Led UI improvements across two versions, refining layouts, workflows, and visual consistency
- Created scalable components and user-friendly dashboards for security management

LexAI

AI-powered legal & compliance platform — current

- Designing interfaces for cases, Legal Holds, Custodians and related workflows
- Creating user centered flows that simplifies complex legal processes and improve operational efficiency

PROFILE

UI/UX Designer with 3+ years designing user-centered digital products and enterprise web platforms. Skilled in end-to-end design, from requirements and information architecture through visual design and usability testing, for fraud detection, risk management, and cybersecurity products.

DOMAINS

Fraud detection
Risk management
Cybersecurity
Legal & compliance
Enterprise SaaS

STRENGTHS

Owning feature-level design end to end, translating dense requirements into usable structure, and iterating quickly on stakeholder and usability feedback.
